Running away to the forest.

The leaves under your feet, the fresh air in your lungs,
and the golden light breaking through the tree canopy.

Close your eyes, and you can almost picture it.

Mila Ziska's music will give listeners this exact feeling.

Having grown up in a family of traditional folk musicians and dancers, she draws inspiration from her musical roots as well as from Mother Nature herself, and the fragile beauty of the world around us.

The result is best described as candid Folk-Pop, enchanting audiences with delicate melodies, poetic lyrical touches, and colorful pop hooks.

Mila studied Songwriting at the acclaimed British and Irish Modern Music Institute in Berlin before recently relocating to Scotland.

Mila has performed a number of gigs and festivals across the UK, Scandinavia, Italy and Germany, most notably at Celtic Connections and the Kaustinen Folk Music Festival, the Open Art Lausitz Festival, the Fête de la Musique in Berlin, the Tooth & Claw in Inverness and at The Fiddler in London. Furthermore, Mila's songs have been featured on German radio station Sunray FM, Dash radio by Soundcloud and Prospect Radio.

Mila already has a number of musical releases under her belt, including her debut EP 'Woodlands', which was released in August of 2022 and is currently sitting at well over 400,000 streams on Spotify alone.

The autumn of 2024 brought Mila's second, highly anticipated, EP 'A Long Way To Go', which was very well received by her fanbase. Mila's latest project 'Only Stillness', a collaborative seasonal EP, was released in November of 2025. This release was accompanied by a tour of Scotland, with the Germany leg of the tour following in January 2026.

Her delicate vocals float above carefully layered instrumentation, creating a sound that's as much at home in a cozy folk club as it is on modern streaming playlists.

Plucked acoustic guitar accompanies Mila's calming vocal with a refrain so good it could brighten even the rainiest of days.

A wonderful, delicate voice.

- Anastasia On Air, Sunray FM

Such a pure and amazing voice. Add in her beautiful melodies on her ukulele and you have a singer-songwriter who will draw you in and keep you there.
